#### Abstract

Teacher is the backbone of the nation. His role in nation-building is crucial and unparalleled. He fosters a sense of individuality among people. He plays the role of a pioneer. Under their influence, the country's economic and cultural development reached its ultimate peak. This paper explain that teachers can do anything in present and future for our nation development as facilitator and also to develop them into productive and responsible citizens. An honest and virtuous teacher can not only create responsible citizens for the future but also manage a responsible education system and elevate education to a higher level. It further highlights the relevance of teachers in the modern era marked by globalization, technological advancement, and social challenges. The study concludes that sustainable national development is impossible without committed, competent, and value-oriented teacher.

**Keywords:** Teacher, National Builder, Social development, Social change, Facilitator, Teacher responsibility

### Introduction

Generally, our first teachers in my parents. Parents learn at first in letter and words. He first taught us the sense of right and wrong. Napoléon said, "Give me an educated mother, and I will give you an educated nation." In other words, the mother's role in educating her child is undeniably significant next come the teachers of educational institutions who, through love, affection, and care, educate us and mold us into good citizens of the country, while also playing a role in building our nation and country. Thus, the role of a teacher extends far beyond textbooks and examinations – it is deeply connected with the progress and destiny of a nation. Thus, the role of a teacher extends far beyond textbooks and examinations – it is deeply connected with the progress and destiny of a nation. Thus, the role of a teacher extends far beyond textbooks and examinations – it is deeply connected with the progress and destiny of a nation.

### Concept of national Builder as Teacher

A teacher's job is to impart knowledge, but also to instill a sense of responsibility, develop character, and create a disciplined environment, thereby shaping good citizens. In addition, a teacher develops qualities of empathy among students and also helps in character building. In addition, a teacher instills love for the country and patriotism in the students. A teacher fosters creativity and increases social awareness among students, instilling in them a sense of responsibility and shaping them into responsible citizens of the future. A teacher not only helps in character building among students but also guides them on how to solve problems' teacher shapes a student into a true leader of the future and guides them on the right path.

In short, a 'National Builder Teacher' is a craftsman who helps build a strong and developed nation by instilling knowledge, morality, and patriotism in the future generations of a country.

### Teacher as a Knowledge Provider

A teacher not only imparts knowledge, but also simplifies subjects and acts as a mentor. A teacher develops skills in students and also presents new information centered around the curriculum. He creates an environment where students have the opportunity to receive a good education. He teaches students how they can build their future. In their personal lives, he helps them in choosing their professional paths, and he always gives students the right and positive messages so that they always receive his support mentally. He emphasizes honesty, empathy, and respect in instilling values among students. He instills confidence and discipline in the students, teaching them to ask questions, conduct research, and analyze information. They also help students find and evaluate accurate information

Therefore, a teacher as a provider of knowledge is a person who helps students develop holistically in their lives, combining knowledge, skills, and value.

### **Teacher as a Moral and Ethical Guide**

A teacher acts as a moral and ethical guide. He worked according to his ideals and principles, and also cultivated values of honesty and respect within himself. He will present himself as a role model in society and will teach students values, responsibility, and self-awareness. The teacher will create an environment where the students are captivated by his/her pleasant words. His job will be to foster collaborative and respectful relationships with students and colleagues. He will teach society and students how to maintain an unbiased attitude. He will also teach how to deal with things in a fair manner. He will teach how to enhance professional skills and how to follow rules and regulations. He will teach you how to make the right decisions in difficult situations and how to solve any problem in the correct way.

### **Teacher as a Social Reformer**

Teacher is reformer in our society. Teacher teaches the student How to change the society. They are participating in social work. Teacher attitudes and values challenges the society systems. Creating a disciplined They provide society with a unique education about human rights values and gender equality and secure environment. Teacher learns to society how to remove the superstitions and reform our society. They are always trying to relation our societies person and society understand aim of teacher. Teacher wants to fill-up societies need for different types of development. Teacher can learn the students in patriotism fillings and global understanding in our society. Teachers prepare students for responsible participation in society. They are established the school for women and marginalized peoples.

So, we know every teacher is importance role our societies as a Social Reformer. They are trying to best our societies how to day by day developing.

### **Teacher as a Democratic Educator**

Teacher as democratic educator is the student's friend philosopher and guide. Teacher understands the students mentally and according to guide the students as a mentor in Neutral person. They always think how to develop the democratic value in our students' minds. Teachers educate students about democratic values such as: Freedom, Equality, Justice, Rule of law & Civic responsibility

By encouraging discussion, debate, and critical thinking, teachers cultivate democratic attitudes. Students learn to respect differing opinions and participate actively in democratic processes teacher fosters democratic values among students through awareness, responsible voting, impartial thinking, and a cooperative attitude. A teacher in society not only imparts knowledge but also provides various hands-on learning experiences and undertakes new, exploratory programs. A teacher fosters a spirit of discovery among students and ensures that everyone receives equal opportunities in various fields. They ensure that society and students can develop themselves in the future with a mindset similar to that of their teachers. A teacher provides them with opportunities to participate equally in various cultural activities. He strives to develop critical thinking skills while also fostering a sense of appreciation for beauty in everyone.

Therefore, it can be said that this democratic spirit of the teacher sustains the existence of democracy and also creates a democrat and the teacher creates a hundred bonds between the past and the future environment for the student community.

### **Teacher as a Cultural Transmitter**

As a cultural transmitter, a teacher passes on social knowledge and traditions to the next generation. And the teacher creates a hundred bonds between the past and the future teacher explains what the cultural heritage of our society was in the past and what it is now, highlighting the difference between the two and they evaluate its that we can learn about our culture, the teachers have spoken about including this cultural aspect in the curriculum. We can carry our culture forward, and we also focus on how to keep our culture Moreover, he urged the student community to participate in cultural activities using this gas. He also highlighted the differences between our culture and the cultures of others. He tries to explain that all cultures that are diminishing our existence should be expelled. Moreover, he urged the student community to participate in cultural activities using this gas. He spoke about expanding the ideas on how our culture can be further improved and established on the world stage, as well as building a just and equitable culture.

### **Teacher as a Promoter of National Unity and Integration**

Teachers are the bearers and custodians of national unity and culture. He instills values of patriotism and harmony among the students. He instilled a sense of morality, democratic values, and impartial values among the students. He fostered a sense of brotherhood regardless of religion or caste teacher eliminates social divisions and fosters unity and solidarity's and established an ideal for society. Develop an unbiased attitude towards all students and teach them to reject discrimination. He inspires students towards national ideals and goals and plays a vital role in building a prosperous and strong nation. His thoughts on his country and nation inspire the future generation of youth to build a new nation. His thoughts and mindset influence our national society therefore; it can be said that teachers play a significant role in establishing unity and solidarity in the country and in building a progressive nation.

### **Teacher as a Moral and Character Builder**

The role of teachers in shaping moral character is undeniable. A teacher educates not only the students but also society in such a way that morally upright citizens are developed in the country. Students follow their teachers, so teachers need to be of good character before they can shape the character of their students. Therefore, a teacher of good character shapes the character of his students through his principles and ideals. The teacher presented Swami Vivekananda's character as an example for the students and society to emulate, and urged them to follow his ideals. A teacher not only imparts character education but also teaches morality to students and society. Teachers educate students to be responsible towards society and to discern between what is good and bad for society. They try to impart values through the curriculum so that students can learn morality from these values.

### **Teacher and Economic Development of the Nation**

Economic growth depends on a skilled and productive workforce.

1. Skill Development and Employability: Teachers equip learners with vocational skills, technical knowledge, and professional competence needed for employment and entrepreneurship. Initiatives like Skill India depend heavily on the role of teachers.
2. Encouraging Innovation and Entrepreneurship: Teachers inspire creativity and problem-solving, encouraging students to become innovators and job creators rather than job seekers, thus contributing to economic self-reliance.

**Challenges Faced by Teachers in Nation Building:** Teachers are facing various challenges in nation-building, especially in the present times. These are given below.

Lack of textbooks, educational materials, infrastructure, and funding. Along with that, there is a lack of facilities in rural areas, lack of modern teaching methods and a shortage of people for professional development and mentoring, not giving respect and dignity to the teaching profession, Inadequate salary and job insecurity

### **Impact on Nation Building**

These challenges lead to teacher burnout decreased effectiveness, and an inability to fully nurture students' holistic development, ultimately hindering the quality of education needed to build strong, capable citizens for progress.

We can say that teachers have been carrying on the work of building an ideal country and nation from ancient times to the modern era. They are committed to building a new nation, but in doing so, they are facing political obstacles, and we too are facing many problems.
